

HTML and CSS

To get started with HTML and CSS, please see following videos.

1. <https://www.youtube.com/watch?v=OZeioztzPFg>
2. <https://www.youtube.com/watch?v=yyqvXhu-HOc>

1. HTML Task

- a. What is HTML? Give basic structure of the HTML page.
- b. Difference between inline and block level element.
- c. Create an HTML page “index.htm” with following content

My first web page

What this is

Welcome to *my first webpage*. I created this webpage without the assistance of a webpage editor. Just my little text editor and a keen **understanding of html**.

Why this is

- To learn HTML
- List element
 1. Home
 2. FAQ
 3. Contact
 4. About
- Here I have created ordered and unordered list

ZeusLearning.com

[This link will open zeuslearning.com in new tab](#)

On click of following image navigate to Google.com

Some random table

| | | |
|---------------|---------------|---------------|
| Row 1, cell 1 | Row 1, cell 2 | Row 1, cell 3 |
| Row 2, cell 1 | Row 2, cell 2 | Row 2, cell 3 |
| Row 3, cell 1 | Row 3, cell 2 | Row 3, cell 3 |
| Row 4, cell 1 | Row 4, cell 2 | Row 4, cell 3 |

Some random form

Note: It looks the part, but won't do a anything.

Name:

Comments:

Your comments

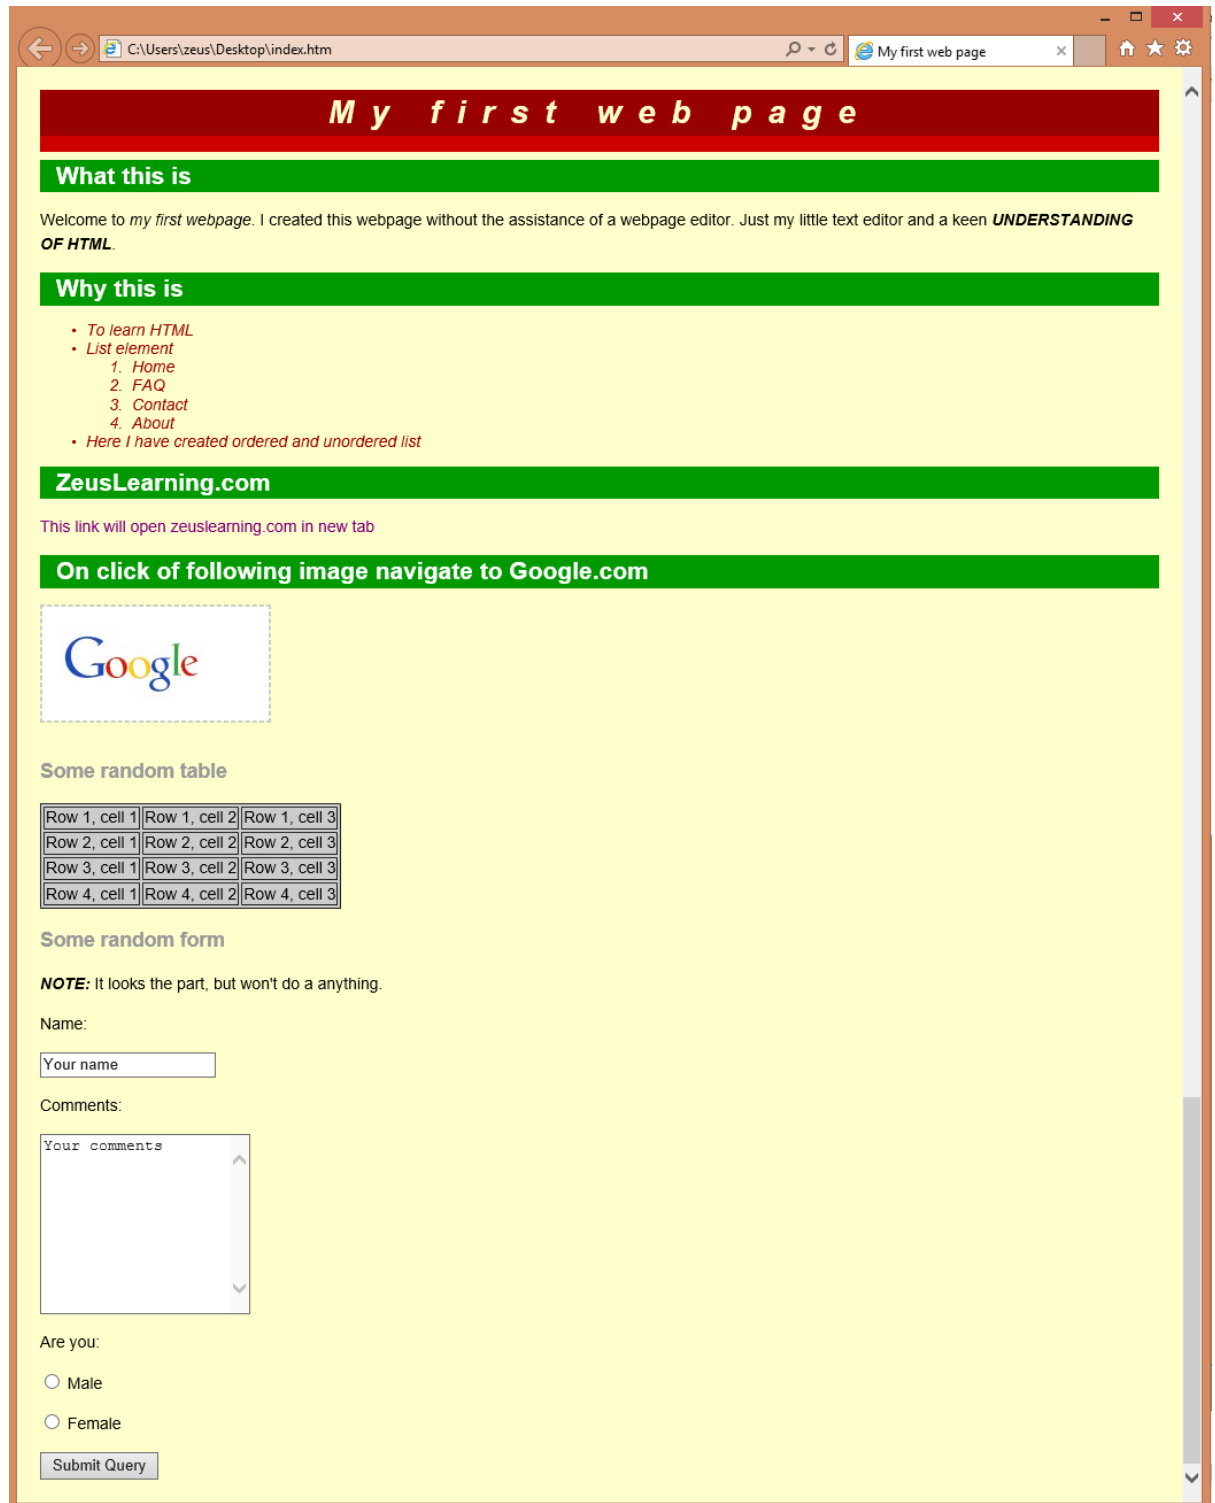

Are you:

☐ Male

☐ Female

2. CSS Task

- Explain the different ways in which CSS can be applied to HTML, what is the preferred way and why.
- What are different CSS selectors, with example explain Element, Class and Id selectors.
- With the help of a diagram explain CSS Box Model.
- To HTML page create in the task 1.a, apply following CSS

JavaScript

- a. List down ways in which JavaScript command can be added to a webpage, what is the preferred way.
- b. To the webpage created in the task 2.d , on click of “Submit” button call JavaScript function to validate:
 - I. Name and comments fields are not empty.
 - II. User has selected one entry from male/female radio button
 - III. In case user has not entered data for name and comment field or not selected anything from male/female radio button – show alert message “All fields are compulsory” and set focus to the first field that is empty.
